IRRIGATION WATER SERVICE (CITY)

AVAILABILITY

Metered water service will be provided to consumers within the City limits of Shelby for irrigation use, where access to existing facilities is feasible.

RATE

\$2.70 per 1000 gals. used per billing period

CONDITIONS

Irrigation Systems – Commercial and Residential

All irrigation systems installed where water is provided by the City of Shelby must be connected to a separate irrigation meter installed by the City of Shelby. The City of Shelby requires the installation of a backflow assembly prior to the initiation of water service. At a minimum and consistent with the North Carolina Administrative Code "Rules Governing Public Water Systems", the City of Shelby will require the installation of Reduced Pressure Zone (RPZ) device for adequate water system protection.

To inquire about fees and obtaining an irrigation meter, call 704-484-6866

Once installed, please contact Customer Services (704)484-6866 for an inspection of backflow prevention assembly. Once the device has passed inspection, the meter will be activated by the City of Shelby Utilities.

An initial test of the Reduced Pressure Principle (RP) backflow assembly and annually thereafter, is required. The customer is responsible for this testing and shall be responsible for submission of the Backflow Device Testing Form to the City within 30 days of testing. All testing must be conducted by a contractor licensed by the State of North Carolina for testing of backflow prevention devices.

Testing information shall be forwarded to:

City of Shelby Utilities
c/o Backflow Prevention
Post Office Box 207
Shelby, NC 28151-0207

For additional questions regarding the Backflow Prevention Device please contact City of Shelby Utilities at 704-484-6840.

SCHEDULE IR-1

SEWER SERVICE (CITY)

AVAILABILITY

Sewer service will be furnished to residential, commercial and industrial customers within the corporate limits of Shelby, if access to existing City facilities is feasible.

RATE

A. CUSTOMERS RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Customer Charge Per Water Consumption Unit \$ 14.97 per billing period

Volume Charge (Per 1000 gallons) \$ 4.29

The Minimum Bill is the Customer Charge.

B. CUSTOMERS NOT RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Charge negotiated on basis of estimated or measured discharge of wastewater into the sewer system.

Minimum Bill: (1) \$36.42 for estimated discharge of 5000 gallons or less per billing period.

(2) Rate under A. when actual measured discharge is required under D.

C. CUSTOMERS RECEIVING LOW PRESSURE SEWER PUMP SERVICE

Customer Charge Per Consumption Unit \$14.97 per billing period

Customer Pump Charge
per Consumption Unit \$44.41 per billing period

Volume Charge (Per 1000 gallons) \$ 4.29

The Minimum Bill is the Customer Charge.

D. See "Conditions" Paragraph on Reverse Side.

SCHEDULE C-10-20

CONDITIONS

Sewer service billing for customers who receive all water used from the City water supply system, is normally based on the entire amount of water metered and delivered by the City.

A customer who uses water received from sources other than the City water supply system and which water is discharged into the City sewer system, may be required to install and maintain, without expense to the City of Shelby, an acceptable device, or devices, for measuring the quantity of water received. The customer will pay a sewer service charge for such water discharged into the City water supply system.

A user of the City water system for residential or commercial use, no part of which reaches the City sanitary sewer system, may avoid the regular sewer charge by having a separate water meter installed to measure water used for this purpose.

In the event that a person or corporation discharging industrial wastes into the City sanitary sewer system produces evidence to the City Manager that more than 10% of the total annual volume of water used for all purposes does not reach the City sanitary sewer, an estimated percentage of total water consumption to be used in computing charges may be agreed upon between the City Manager and the persons discharging industrial wastes into said sewer.

A full sewer service charge will be made for water used to fill swimming pools, wading pools, and storage containers; unless such use is determined, at the time of delivery, by a measuring device other than the installed property water meter.

The Code of Ordinances of the City of Shelby, Chapter 44 Article IV, Sections 44-121 through 44-230, covers restrictions on the discharge of wastes into the City sewer system and surcharge(s) for the treatment of wastes which are potentially harmful to the system and/or involve extra processing costs.

In existing service where one meter serves more than one consumption unit, each unit will be considered to carry one customer charge per billing period, regardless of individual or aggregate consumption.

CITY OF SHELBY

EFFECTIVE 07-01-15
Replaces Rates dated
07-01-14

SEWER SERVICE (CITY-Large Industrial)

AVAILABILITY

Sewer service will be furnished to industrial customers within the corporate limits of Shelby, if access to existing City facilities is feasible.

RATE

A. CUSTOMERS RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Customer Charge Per Water Consumption Unit	\$ 133.46 per billing period
Volume Charge (Per 1000 gallons)	\$ 2.34

CONDITIONS

Customer must use a minimum of 1,000,000 per billing period to be eligible for this rate.

Sewer service billing for customers who receive all water used from the City water supply system, is normally based on the entire amount of water metered and delivered by the City.

In the event that a person or corporation discharging industrial wastes into the City sanitary sewer system produces evidence to the City Manager that more than 10% of the total annual volume of water used for all purposes does not reach the City sanitary sewer, an estimated percentage of total water consumption to be used in computing charges may be agreed upon between the City Manager and the persons discharging industrial wastes into said sewer.

B. CUSTOMERS NOT RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Charge negotiated on basis of estimated or measured discharge of wastewater into the sewer system.

- Minimum Bill: (1) \$55.52 for estimated discharge of 5,000 gallons or less per billing period.
- (2) Rate under A. when actual measured discharge is required under D.

C. CUSTOMERS RECEIVING LOW PRESSURE SEWER PUMP SERVICE

Customer Charge Per Consumption Unit \$22.86 per billing period

Customer Pump Charge per Consumption Unit \$45.27 per billing period

Volume Charge (Per 1000 gallons) \$6.53

The Minimum Bill is the Customer Charge.

D. See "Conditions" Paragraph on Reverse Side.

CONDITIONS

Sewer service billing for customers who receive all water used from the City water supply system, is normally based on the entire amount of water metered and delivered by the City.

A customer who uses water received from sources other than the City water supply system and which water is discharged into the City sewer system, may be required to install and maintain, without expense to the City of Shelby, an acceptable device, or devices, for measuring the quantity of water received. The customer will pay a sewer service charge for such water discharged into the City sewer system, as though all such water had been received from the City water supply system.

In the event that a person or corporation discharging industrial wastes into the City sanitary sewer system produces evidence to the City Manager that more than 10% of the total annual volume of water used for all purposes does not reach the City sanitary sewer, an estimated percentage of total water consumption to be used in computing charges may be agreed upon between the City Manager and the persons discharging industrial wastes into said sewer.

A full sewer service charge will be made for water used to fill swimming pools, wading pools, and storage containers; unless such use is determined, at the time of delivery, by a measuring device other than the installed property water meter.

The Code of Ordinances of the City of Shelby, Chapter 44 Article IV, Sections 44-121 through 44-230, covers restrictions on the discharge of wastes into the City sewer system and surcharge(s) for the treatment of wastes which are potentially harmful to the system and/or involve extra processing costs.

In existing service where one meter serves more than one consumption unit, each unit will be considered to carry one customer charge per billing period, regardless of individual or aggregate consumption.

**CITY OF SHELBY
SEWER SERVICE (Rural-Large Industrial)**

EFFECTIVE 07-01-15
Replaces Rates dated
07-01-14

AVAILABILITY

Sewer service will be furnished to industrial customers not within the corporate limits of Shelby, if access to existing City facilities is feasible.

RATE

A. CUSTOMERS RECEIVING FULL REQUIREMENTS SHELBY CITY WATER SERVICE

Customer Charge Per Water Consumption Unit	\$ 204.35 per billing period
Volume Charge (Per 1,000 gallons)	\$ 3.58

CONDITIONS

Customer must use a minimum of 1,000,000 per billing period to be eligible for this rate.

Sewer service billing for customers who receive all water used from the City water supply system, is normally based on the entire amount of water metered and delivered by the City.

In the event that a person or corporation discharging industrial wastes into the City sanitary sewer system produces evidence to the City Manager that more than 10% of the total annual volume of water used for all purposes does not reach the City sanitary sewer, an estimated percentage of total water consumption to be used in computing charges may be agreed upon between the City Manager and the persons discharging industrial wastes into said sewer.

The Code of Ordinances of the City of Shelby, Chapter 44 Article IV, Sections 44-121 through 44-230, covers restrictions on the discharge of wastes into the City sewer system and surcharge(s) for the treatment of wastes which are potentially harmful to the system and/or involve extra processing costs.

SCHEDULE G-10-10
EFFECTIVE 07-01-15
Replaces Rates Dated 07-01-14

CITY OF SHELBY

SEWER SERVICE GOVERNMENTAL RATE

AVAILABILITY:

Sewer service under this schedule is available by written contract to governmental authorities to be used for metered resale.

RATE:

Customer Charge per service connection	\$22.43 per billing period
Volume Charge (per 1000 gallons)	\$6.41 per billing period

CONDITIONS:

Any governmental unit receiving this rate must upon written request from the City of Shelby provide a list of service connections to the sewer lines. The customer charge will be calculated based on the total number of connections to the sewer system.

In existing service where one meter serves more than one consumption unit, each unit will be considered to carry one customer charge per billing period, regardless of individual or aggregate consumption.

CITY OF SHELBY

WATER AND SEWER TAP AND SERVICE FEE SCHEDULE

SEWER

Tap Size	Tap Fee	Service Fee	Total Cost
4"	\$700	\$500	\$1,200
6"	\$700	\$600	\$1,300
8"	\$700	\$2,000	\$2,700
10"	\$700	\$3,000	\$3,700
12"	\$700	\$4,000	\$4,700

Sewer tap fee includes tap and manhole boot only. Contractor is responsible to run service pipe to tap in conjunction with Shelby Utilities.

Sewer service fee only applies to new services at individual public service locations.

Service line replacement will only incur a tap fee.

Tap fee does not apply in new subdivisions at individual parcels. All public infrastructure shall be pretapped by contractor.

WATER

Tap Size	Tap Fee	Meter Set Fee	Service Fee	Total Cost
3/4"	\$850	\$150	\$200	\$1,200
1"	\$850	\$250	\$400	\$1,500
1 1/2"	\$1,150	\$600	\$600	\$2,350
2"	\$1,550	\$750	\$800	\$3,100
3"	\$200	N/A	\$1,000	\$1,200
4"	\$200	N/A	\$1,500	\$1,700
6"	\$200	N/A	\$3,000	\$3,200
8"	\$200	N/A	\$4,000	\$4,200

Hydrant Relocation Fee	\$2,500 or actual cost, whichever is greater
------------------------	--

Asphalt Patch Fee	\$200.00* (Included in water and sewer tap fees above.) *Price subject to adjustment due to road width and/or NCDOT overlay requirements.
-------------------	--

Water tap fee (for 3/4", 1", 1 1/2", and 2") includes all necessary hardware to tie to existing water main and includes meter box and service line providing connection between the meter box and the water main.

Meter Set fee:

-For 3/4", 1" 1 1/2", and 2" water services, the meter set fee includes the City providing and installing appropriate water meter, and the administrative costs of starting water service.

-For 3", 4", 6", and 8" water services, no meter set fee exists. The contractor shall provide and install approved water meter. Water meter* to be provided and installed by contractor.

Water service fee only applies to new services at individual public service locations.

Tap fee does not apply in new subdivisions at individual parcels. All public infrastructure shall be pretapped by contractor.

*All water meters shall be compatible with Itron MVRS remote meter reading system.

City will perform tap on all existing water and sewer lines, and will also provide work on all meter and hydrant relocations. Meter relocation charge shall be the same as tap fee.

Tap and Service Fees for Assessment Areas:

Service fees will be calculated in the total project cost assuming 100% connection.

Connection to stubout after completion in assessment area shall be \$50.00.

Fee Schedule - Miscellaneous Water and Wastewater Fees

Miscellaneous Water Fees

Hydrant Meter Deposits:

Deposit required for Hydrant Flow Meter	\$1500.00
---	-----------

Backflow Preventer Testing Charge

City Staff to perform Backflow Device Testing	\$60.00
---	---------

Miscellaneous Wastewater Fees

Significant Industrial User (SIU) Fee	\$450.00/month
---------------------------------------	----------------

Pretreatment Surcharges:

<i>High Strength BOD</i>	<i>(For BOD >250 mg/L)</i>	<i>\$0.20 per lb.</i>
<i>High Strength TSS</i>	<i>(For TSS >250 mg/L)</i>	<i>\$0.15 per lb.</i>
<i>High Strength NH3-N</i>	<i>(For NH3-N >15.0 mg/L)</i>	<i>\$0.40 per lb.</i>

Additional Pretreatment Fees:

Non-Significant Industrial User Fees

- | | |
|--|------------------|
| • <i>Permit Application – Initial Permit Development</i> | <i>No Charge</i> |
| • <i>Permit Issuance – Due upon Approval of Permit</i> | <i>\$200.00</i> |
| • <i>Annual Permit Renewal/Modification Fee</i> | <i>\$100.00</i> |

Sampling & Miscellaneous Fees

- | | |
|--|------------------------------------|
| • <i>Sampling/Monitoring Fees*</i> | <i>Cost to City (Contract Lab)</i> |
| • <i>Toxicity Monitoring (Acute and Chronic)</i> | <i>Cost to City (Contract Lab)</i> |

**SIU Fees include sampling as outlined by permit. Any additional samples will be billed at cost to the customer. Food Service Establishments requiring testing for Fats, Oils and Grease discharges are included in this category.*

FOG Charges:

<i>Small Customer</i>	<i>0 to 10,000 gals</i>	<i>\$9.52 per month</i>
<i>Medium Customer</i>	<i>10,001 to 50,000 gals</i>	<i>\$14.28 per month</i>
<i>Large Customer</i>	<i>50,001 or greater gals</i>	<i>\$19.04 per month</i>

NOTE: Rate based on water usage per month and can be adjusted accordingly with usage.

Septage Fees:

Septage Load: \$60.00/Load (Typical load ≤2500 gallons)

Annual Permit Fee: \$100.00 *

NOTE: *Permit will be issued for calendar year and Permit Fee is billed upon initial issuance and every December thereafter.

Low Pressure Sewer System:

New Connections: Low Pressure Pump shall be obtained from the City of Shelby.

Cost = Current pump pricing + 4" sewer tap fee + 4" sewer service fee.

Residential Electric Rate Schedules

Schedule RS

Effective 07-01-14 Billing

Replaces rates dated 07-01-13

Residential Electric Service- Available only to residential customers in residences, condominiums, mobile homes or individually metered apartments.

Charges are calculated as follows:

Residential		
	Summer (June-September)	Non-Summer (October-May)
Basic Facilities Charge	\$11.63	\$11.63
Energy Charges:		
First 500 kWh	11.312 cents	11.312 cents
Next 500 kWh	11.312 cents	10.659 cents
Over 1,000 kWh	11.057 cents	10.343 cents

Any applicable North Carolina state or local sales tax will be added to the customer's total charges.

Schedule RA

Effective 07-01-14 Billing

Replaces rates dated 07-01-13

Residential Service- All Electric- Available only to residential customers in residences, condominiums, mobile homes or individually metered apartments. In addition, all energy required for all water heating, cooking, clothes drying and environmental space conditioning must be supplied electrically, and all electric energy used in such dwelling must be recorded through a single meter.

Charges are calculated as follows:

Residential All Electric		
	Summer (June-September)	Non-Summer (October-May)
Basic Facilities Charge	\$11.63	\$11.63
Energy Charges:		
First 500 kWh	11.312 cents	11.312 cents
Next 500 kWh	10.924 cents	10.016 cents
Over 1,000 kWh	10.924 cents	8.466 cents

Any applicable North Carolina state or local sales tax will be added to the customer's total charges.

**SCHEDULE CP-98-2-9
EFFECTIVE 07-01-14 BILLING
Replaces Rates dated 07-01-13**

***City of Shelby*
Coincident Peak Rate - 98 – 2
Electric Rate Schedule CP-98-2**

AVAILABILITY

Available only to new commercial or industrial loads which begin receiving service after July 1, 1998. The demand of the new load must equal or exceed 500 kW but be less than 3,000 kW during at least three months of a twelve-month period.

Service under this Schedule shall be used solely by the contracting customer in a single enterprise, located entirely on a single contiguous site or premises.

This Schedule is not available for auxiliary or breakdown service and power delivered hereunder shall not be used for resale or exchange or in parallel with other electric power, or as a substitute for power contracted for or which may be contracted for under any other schedule of the City, except at the option of the City, under special terms and conditions expressed in writing in the contract with the Customer.

The obligations of the City in regard to supplying power are dependent upon its securing and retaining all necessary rights-of-way, privileges, franchises, and permits for the delivery of such power, and the City shall not be liable to any customer or applicant for power in the event the City is delayed in, or is prevented from furnishing the power by its failure to secure and retain such rights-of-way, rights, privileges, franchises, and/or permits.

TYPE OF SERVICE

The City will furnish 60-Hertz service through one meter, at one delivery point, at one of the following approximate voltages where available:

Single-phase, 120/240 volts; or

3 phase, 208Y/120 volts, 480Y/277 volts; or

3 phase, 3 wire, 240, 480, 575, or 2400 volts, or

3 phase 4160Y/2400, 12470Y/7200, or

3 phase voltages other than the foregoing, but only at the City's option, and provided that the size of the Customer's load and the duration of the Customer's contract warrants a substation solely to serve that Customer, and further provided that the Customer furnish suitable outdoor space on the premises to accommodate a ground-type transformer installation, or substation, or a transformer vault built in accordance with the City's specifications.

The type of service supplied will depend upon the voltage available at or near the Customer's location. Prospective customers should ascertain the available voltage by inquiry at the office of the City before purchasing equipment.

Motors of less than 5 HP may be single-phase. All motors of more than 5 HP must be equipped with starting compensators and all motors of more than 25 HP must be of the slip ring type except that the City reserves the right, when in its opinion the installation would not be detrimental to the service of the City, to permit other types of motors.

MONTHLY RATE

A. Basic Facilities Charge	\$294.68
B. Demand Charge:	
Monthly Billing Demand	
On-Peak Summer (June–Sept.)	\$18.55 per kW
On-Peak Winter (Oct.–May)	\$3.39 per kW
Excess Demand (all months)	\$1.86 per kW
C. Energy Charge:	
Summer (June–Sept.)	
On-Peak	\$0.05862 per kWh
Off-Peak	\$0.05199 per kWh
Winter (Oct.–May)	
On-Peak	\$0.05148 per kWh
Off-Peak	\$0.04689 per kWh

DEFINITION OF “MONTH”

The term “month” as used in the Schedule means the period intervening between meter readings for the purposes of monthly billing, such readings being taken once a month.

DETERMINATION OF BILLING DEMAND**Billing Demand:**

Billing Demand shall be the average of the integrated clock hour kW demands measured during the hours of the On-Peak Period on the day identified as the Peak Management Day used by the North Carolina Municipal Power Agency Number 1 (NCMPA1) for wholesale billing purposes during the corresponding month of Customer's billing.

On-Peak Periods:

On-peak periods are non-holiday weekdays during the following times:

June-September	2pm – 6pm
December-February	7am – 9am
All other months	7am – 9am and 2pm – 6pm

Holidays:

The following days of each calendar year are considered holidays: New Years Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the Friday following Thanksgiving Day, and Christmas Day. In the event that any of the foregoing Holidays falls on a Saturday, the preceding Friday shall be deemed to be the Holiday. In the event any of the foregoing Holidays falls on a Sunday, the following Monday shall be deemed to be the Holiday.

Peak Management Days:

Peak Management Days are the days on which NCMPA1 notifies its Participants to activate their peak management programs during On-Peak periods. The Peak Management Day used to establish the city's wholesale billing demand is the one Peak Management Day during the month on which NCMPA1 experienced the greatest average load (determined as the average of NCMPA1's integrated hourly loads during the hours of the On-Peak Period).

EXCESS DEMAND

Excess demand shall be the difference between the maximum integrated clock hour kW demand recorded during the current billing month and the Billing Demand for the same billing month.

NOTIFICATION BY CITY

The City will use diligent efforts to provide advance notice to the Customer of Peak Management Days if requested. However, the City does not guarantee that advance notice will be provided. Notification by the City will be provided to the Customer by direct telephone communications or automatic signal, as mutually agreed. The Customer will hold the City harmless in connection with its response to notification.

DETERMINATION OF ENERGY

The kWh of energy shall be the sum of all energy used during the current billing month as indicated by watt-hour meter readings.

ON-PEAK ENERGY

For billing purposes in any month, On-Peak Energy, in kWh, shall be the metered energy during the On-Peak Energy Period, whereby the On-Peak Energy Period is defined as non-holiday weekdays from 7:00 AM to 11:00 PM.

OFF-PEAK ENERGY

For billing purposes in any month, Off-Peak Energy, in kWh, shall be the metered total monthly energy less the amount of energy billed in that month under On-Peak Energy.

POWER FACTOR CORRECTION

When the average monthly power factor of the Customer's power requirements is less than 90 percent, the City may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing by the average power factor in percent for that month.

CONTRACT PERIOD

Each customer shall enter into a contract to purchase electricity from the City for a minimum original term of one (1) year, and thereafter from year to year upon the condition that either party can terminate the contract at the end of the original term, or at any time thereafter, by giving at least sixty (60) days prior notice of such termination in writing; but the City may require a contract for a longer original term of years where the requirement is justified by the circumstances.

SALES TAX

North Carolina sales tax of 7% shall be added to the customer's total charges for each month, determined in accordance with the above electric rates.

City of Shelby
Electric Rate Rider REPS
Renewable Energy Portfolio Standards (REPS) Charge

Applicability

The Renewable Energy Portfolio Standards Charge set forth in this Rider is applicable to all customer accounts receiving electric service from the City of Shelby (“City”), except as provided below. These charges are collected for the expressed purpose of enabling the City to meet its Renewable Energy Portfolio Standards compliance obligations as required by the North Carolina General Assembly in its Senate Bill 3 ratified on August 2, 2007.

Billing

Monthly electric charges for each customer account computed under the City’s applicable electric rate schedule will be increased by an amount determined by the table below:

<u>Customer Type</u>	<u>Monthly Charges</u>		
	<u>Renewable Resources</u>	<u>DSM/Energy Efficiency</u>	<u>Total REPS Charge</u>
Residential Account	\$ 0.49	\$ 0.07	\$ 0.56
Commercial Account	\$ 2.69	\$ 0.00	\$ 2.69
Industrial Account	\$27.75	\$ 0.00	\$27.75

Exceptions

Industrial and Commercial Customer Opt-out

All industrial customers, regardless of size, and large commercial customers with usage greater than one million kWh’s per year can elect not to participate in City’s demand-side management and energy efficiency measures in favor of its own implemented demand-side management and energy efficiency measures by giving appropriate written notice to the City. In the event such customers “opt-out”, they are not subject to the DSM/Energy Efficiency portion of the charges above. All customers are subject to the Renewable Resources portion of the charges above.

Auxiliary Service Accounts

The following service schedules will not be considered accounts because of the low energy use associated with them and the near certainty that customers served under these schedules already will pay a per account charge under another residential, commercial or industrial service schedule:

- Outdoor Lighting Service (metered and unmetered)
- Street and Public Lighting Service
- Traffic Signal Service

Sales Tax

Applicable North Carolina sales tax will be added to charges under this Rider.

Effective for service rendered after July 1, 2015.

**City of Shelby
Renewable Energy Credit Rider
Electric Rate Rider RECR-1**

AVAILABILITY

This optional rate rider is available to customers on any City of Shelby (“City”) rate schedule who operate solar photovoltaic, wind powered, or biomass-fueled generating systems, without battery storage, located and utilized at the customer’s primary residence or business. To qualify for this rate rider, the customer must have complied with the City’s Interconnection Standards and have an approved Interconnection Request Form. As part of the Interconnection Request Form approval process, the City retains the right to limit the number and size of renewable energy generating systems installed on the City’s System. The generating system that is in parallel operation with service from the City and located on the customer’s premises must be manufactured, installed, and operated in accordance with all governmental and industry standards, in accordance with all requirements of the local code official, and fully conform with the City’s applicable renewable energy interconnection interface criteria. Qualified customers must be generating energy for purposes of a “buy-all/sell-all” arrangement to receive credits under this rate rider. That is, the City agrees to buy all and the customer agrees to sell all of the energy output and associated energy from the renewable energy resource. Customers with qualified systems may also apply for NC GreenPower credits or North Carolina Municipal Power Agency 1 (“NCMPA1”) Renewable Energy Certificate (“REC”) credits.

The Fixed Long-Term Rates on this Rider are available only to Customers who have executed a Power Purchase Agreement with the City on or before July 1, 2016 [or other date determined by City] for delivery of power beginning on or before the earlier of thirty (30) months from the date of execution of the Power Purchase Agreement.

Notwithstanding the above, all qualifying facilities have the option to sell energy to the City on an “as available” basis and receive energy credits based on the Variable Rates identified in this Rider for the delivered energy.

MONTHLY CREDIT

Monthly credits are paid according to the type of renewable generation.

Wind and Biomass Energy Credit (\$ Per kWh):

		<u>Fixed Long-term Rate</u>		
	<u>Variable</u>	<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
On-peak energy*	\$0.0315	\$0.0326	\$0.0348	\$0.0372
Off-peak energy	\$0.0103	\$0.0108	\$0.0112	\$0.0116

Solar Photovoltaic Energy Credit (\$ Per kWh):

		<u>Fixed Long-term Rate</u>		
	<u>Variable</u>	<u>5 Years</u>	<u>10 Years</u>	<u>15 Years</u>
All energy*	\$0.0334	\$0.0345	\$0.0367	\$0.0390

* These energy credits include a capacity component.

MONTHLY ENERGY

Monthly Energy shall be the total kWh of energy produced by the generating facility during the current calendar month. All energy produced by the Customer's renewable energy generating system must be delivered to the City, since the city does not offer net metering at this time.

ON-PEAK ENERGY

On-Peak Energy shall be the metered energy during the On-Peak Energy Period of the current calendar month, whereby the On-Peak Energy Period is defined as non-holiday weekdays from 7:00 AM to 11:00 PM EPT.

OFF-PEAK ENERGY

Off-Peak Energy shall be the Monthly Energy less the amount of energy billed as On-Peak Energy.

CONTRACT PERIOD

Prior to receiving service under this Rider, the City and the customer shall have entered either an Interconnection Agreement or executed a Certificate of Completion (inverter-based generators less than 10 kW) and a Power Purchase Agreement which covers the special terms and conditions for the customer's requirements related to the interconnection of the customer's renewable energy generating system.

Each of these agreements shall have a minimum term of one (1) year. Either party may terminate the agreements after one year by giving at least thirty (30) days previous notice of such termination in writing.

GENERAL

Service under this Rider is subject to the provisions of the Service Regulations of the City contained in the *City of Shelby Terms and Conditions of Electric Service and Electric Service Regulations*.

SPECIAL CONDITIONS

The customer's service shall be metered with two meters, one of which measures all energy provided by the City and used by the customer, and the other measures the amount of energy generated by the customer's renewable energy generator which is provided to the City.

In the event that the City determines that it is necessary to install any additional equipment to protect the safety and adequacy of electric service provided to other customers, the customer shall pay for the cost of such equipment in accordance with the terms of its Power Purchase Agreement.

Effective July 1, 2015.

**SCHEDULE 41
Base Rate Effective 5/10/2013 Billing**

CITY OF SHELBY

RESIDENTIAL GAS SERVICE

AVAILABILITY

Gas Service under this rate is available for all residential purposes in individual residences and in individual units of multiple-family buildings located where City gas service is available.

CHARACTER OF SERVICE

Natural gas supplied under this schedule is sold on a firm basis only and shall be supplied through a single delivery point and be separately metered. Commingling of gas purchased under this schedule with gas purchased under other rate schedules is prohibited. All natural gas delivered under this rate is for the exclusive use of the customer and shall not be resold.

MEASUREMENT, BILLING AND PAYMENT

For measurement purposes, the volume of natural gas delivered under this rate schedule shall be measured in cubic foot units. Volumes of gas hereunder will be determined in accordance with the City's measurement base. For billing purposes, the volume of natural gas billed under this rate schedule shall be billed by the hundred cubic foot units (CCF).

RATE

The City of Shelby Natural Gas System Rates shall be set forth on Sheet No. 40 in this tariff and are incorporated herein by reference. The customer's total bill is calculated using the following components.

$$\text{Total Bill} = \text{FC} + (\text{U} \times \text{CR})$$

FC = Monthly Facilities Charge

U = Customer Monthly Usage in CCF

CR = Total Commodity Rate for the current period in CCF

The Total Commodity Rate is adjusted for each billing period by adding the Base Commodity rate to the average incremental cost of gas supply for the current period. This value is computed on a per dekatherm basis and converted to a per hundred cubic feet basis using the current heating value content of the gas. The Total Commodity Rate will be calculated each billing cycle and set forth on Schedule 40. The base commodity rate is shown below.

CITY OF SHELBY

HIGH LOAD FACTOR GAS SERVICE

AVAILABILITY

Gas Service under this rate schedule is available to any eligible commercial or industrial consumer using natural gas principally for process stream generation, manufacturing purposes, or any other base-load application, where the use of gas for space heating is only incidental. This rate is not available to consumers whose use of gas during the month of least consumption is less than 50% of the use during the month of greatest consumption.

CHARACTER OF SERVICE

Natural gas supplied under this schedule is sold on a firm basis only and shall be supplied through a single delivery point and be separately metered. Commingling of gas purchased under this schedule with gas purchased under other rate schedules is prohibited. All natural gas delivered under this rate is for the exclusive use of the customer and shall not be resold.

MEASUREMENT, BILLING AND PAYMENT

For measurement purposes, the volume of natural gas delivered under this rate schedule shall be measured in cubic foot units. Volumes of gas hereunder will be determined in accordance with the City's measurement base. For billing purposes, the volume of natural gas billed under this rate schedule shall be billed by the hundred cubic foot units (CCF).

SCHEDULE 44
Base Rate Effective 5/10/2013 Billing

CITY OF SHELBY

INTERRUPTIBLE GAS SERVICE
WITH OR WITHOUT PARTIAL FIRM REQUIREMENTS

AVAILABILITY

Gas service under this rate schedule is available by written contract to eligible large industrial consumers, whose use of gas is principally for process purposes, and where space heating is incidental only. This service is offered only to customers who average daily gas usage is reasonably anticipated to equal or exceed 50 dekatherms per day.

STANDBY ALTERNATE FUEL CAPACITY

Customers purchasing gas pursuant to this Rate Schedule shall maintain, in useable condition, alternate fuel facilities with ample on-site alternate fuel capability for supplying 100% of the establishment's gas requirements during periods of gas interruption or curtailment. Such interruption or curtailment shall be immediately effective upon verbal or written notification by the City and Customer shall refrain from using gas until permitted to do so by the City. It is understood and agreed that the City will have the right to suspend gas service without further notice to the Customer in the event the Customer fails to curtail Customer's use of gas in accordance with the City's notice of curtailment.

CHARACTER OF SERVICE

Natural gas supplied under this schedule is sold on an interruptible basis only and shall be supplied through a single delivery point and be separately metered. Commingling of gas purchased under this schedule with gas purchased under other rate schedules is prohibited. All natural gas delivered under this rate is for the exclusive use of the customer and shall not be resold.

MEASUREMENT, BILLING AND PAYMENT

For measurement purposes, the volume of natural gas delivered under this rate schedule shall be measured in cubic foot units. Volumes of gas hereunder will be determined in accordance with the City's measurement base. For billing purposes, the volume of natural gas billed under this rate schedule shall be billed by the hundred cubic foot units (CCF).

RATE

The City of Shelby Natural Gas System Rates shall be set forth on Sheet No. 40 in this tariff and are incorporated herein by reference. The customer's total bill is calculated using the following components.

Total Bill = FC + (U x CR)

- FC = Monthly Facilities Charge
- U = Customer Monthly Usage in CCF
- CR = Total Commodity Rate for the current period in CCF

The Total Commodity Rate is adjusted for each billing period by adding the Base Commodity rate to the average incremental cost of gas supply for the current period. This value is computed on a per dekatherm basis and converted to a per hundred cubic feet basis using the current heating value content of the gas. The Total Commodity Rate will be calculated each billing cycle and set forth on Schedule 40. The base commodity rate is shown below.

Base Commodity Rate

Interruptible Industrial	First 1500 MCF/month	\$2.08/dekatherm
	Next 1500 MCF/month	\$1.66/dekatherm
	Next 3000 MCF/month	\$1.36/dekatherm
	Next 9000 MCF/month	\$1.12/dekatherm
	All volumes over 15,000 MCF/month	\$0.92/dekatherm

PROVISIONS:

1. Whenever curtailment or interruption of interruptible gas delivered hereunder is required, the City shall issue a curtailment order to consumer, specifying the quantity of gas to be curtailed and the time at which such curtailment is to be made.

When restoration of service is permissible, the City shall similarly issue a restoration order specifying the quantity of gas to be restored and the time at which such restoration is to be made. Consumer shall carry out all such orders at the time specified therein. A curtailment order shall be issued at least one hour in advance of its effective time.

2. In the event customer fails to discontinue the use of interruptible gas after one hour's notice that the interruptible gas under this schedule is not available, all gas so used shall be paid for by the consumer at a rate of \$55.00 per DT of maximum day use of such unauthorized gas, in addition to the regular commodity charge for such gas and any charges for firm gas.

3. When a customer is notified to curtail service, or while gas service is being curtailed, customer finds it impossible to continue operations on his standby fuel because some bona fide emergency and the City has gas available from some source other than its Contract Demand Service from Transcontinental Gas Pipe Line Corporation, the City may, at its discretion, furnish emergency gas service upon request from customer for such service. All emergency gas so used shall be paid for by the consumer at the rate of \$3.00 per dekatherm of gas plus the highest incremental gas commodity cost for gas purchased by the City in the current month. The City shall not be liable in any way to any customer for failure in whole and in part, temporary or permanent, to deliver emergency gas under this provision.

Effective July 1, 2014

CITY OF SHELBY

**NATURAL GAS INDUSTRIAL FIRM
TRANSPORTATION RATE SCHEDULE**

APPLICABLE

To any industrial class of customer that consumes more than 75,000 dekatherms a billing period and is located inside the city limits of Shelby, NC and is connected to the City of Shelby (City) natural gas system:

- A. To the extent that the City and Customer have adequate facilities and equipment available and in place for transporting and delivery of such volumes of gas;
- B. When a Customer has executed a Service Agreement with the City, wherein the City agrees to transport and deliver volumes of gas received for the Customer as specified therein.

CHARACTER OF SERVICE

Transportation of natural gas by the City under this rate schedule shall be on a firm basis.

MONTHLY RATE

Customer Charge	\$500.00	
First 50,000 Dekatherms		\$.635 per Dekatherm
Next 25,000 Dekatherms		\$.435 per Dekatherm
Next 25,000 Dekatherms		\$.245 per Dekatherm
All over 100,000 Dekatherms		\$.135 per Dekatherm

DETERMINATION OF DELIVERIES

The volumes of gas transported pursuant to this schedule shall be the volumes delivered to the City by the Customer at the point of delivery. Gas delivered hereunder shall be billed as the first gas through the Customer's meter each month.

BALANCING OF TRANSPORTATION VOLUMES

Receipts and deliveries of gas hereunder shall be at uniform rates of flow with no significant fluctuations or imbalances. Customers (or its Agent) are responsible to match daily gas deliveries into the City's system with daily gas consumption by Customer as closely as possible. Any imbalances shall be corrected by the Customer (or its Agent), insofar as practicable, during the

month in which they occur. Customers (or its Agent) are expected to proactively manage intra-month imbalances. Customer (or its Agent) may adjust its daily nominations during a month in order to correct any accumulated imbalance and maintain a monthly balance subject to the operating limitations of the City. The City reserves the right to limit the amount of such imbalances to avoid operating problems, comply with balancing requirements of the upstream pipeline(s), and to mitigate the need to acquire additional daily supply at prices that would adversely affect sales customers. The Customer (or its Agent) will be responsible for any imbalance charges assessed by upstream pipeline(s) in connection with any gas transported by the Customer under this Rate Schedule.

In the event Customer (or its Agent) fails to abide by the requirements set forth above, the City shall have the right to curtail deliveries to Customer if an imbalance is negative or reducing Customer's nominated quantities if an imbalance is positive. The Customer will be responsible for any imbalance charges assessed by upstream pipeline(s) in connection with any gas transported by the Customer. The City reserves the right to take other reasonable action to mitigate system operational problems. The City will use its reasonable efforts to notify the Customer or the Customer's Agent before proceeding with a unilateral nomination reduction or delivery curtailment and will notify Customer of any reduction to Customer's nomination that has been instituted by the City.

Any time the Customer is consistently using more or less gas than is being delivered to the City for the Customer's account, it shall be the Customer's responsibility to bring its supply and requirements into balance. Customers must balance within 5% of their monthly deliveries and within 10% of their daily deliveries in order to maintain the integrity of the system under normal operating conditions.

In instances where there is an over-deliver of supply, the City at its option, may cash-out this over-supply and purchase any or all of the excess volumes at a rate of 20 cents per dekatherm lower than its lowest cost of commodity supply that month.

In instances where there is an under-deliver of supply, the City at its option, may cash-out this under-supply and sell any or all of the deficit volumes to the Customer at a rate of 20 cents per dekatherm higher than the firm sales tariff rate for that month.

During an Operational Flow Order (OFO) on any upstream pipeline and in other situations where the City notifies the customer via email or by phone, Customers must balance within 5% of their daily deliveries to maintain the integrity of the system.

In instances where there is an over-deliver of supply during an OFO or other situation identified by the City, the City at its option, may cash-out this over-supply and purchase any or all of the excess volumes at a rate of 20 cents per dekatherm lower than its lowest cost of commodity supply for that day.

In instances where there is an under-deliver of supply during an OFO or other situation identified by the City, the City at its option, may cash-out this under-supply and sell any or all of the deficit volumes to the Customer at a rate of 20 cents per dekatherm higher than the highest cost of commodity supply for that day.

In addition, the Customer will also be charged imbalance penalties in instances where the City incurs imbalance or overrun penalties from the pipeline supplier due to overruns or under-deliveries. These charges will be based on a prorated share of the penalty attributed to the Customer.

LATE PAYMENT CHARGE

Unless bill is paid on or before ten (10) days after the due date as shown on bill, the account will be assessed late fees as outlined in the City's fee schedule.

SPECIAL PROVISIONS

1. The customer will operate within the guidelines required by Williams Transco Gas Pipeline (transporter). The Customer, or its agent, shall inform the City, or its agent, by 10:00 am of the working day prior to the day the gas is to be delivered, of the anticipated consumption level and the volume requested for delivery. At that time, the City, or its agent, shall inform the Customer of any restrictions on the volume requested for delivery.
2. The Customer, or its agent, is responsible for all of the necessary arrangements and notification for the scheduling of transportation on the pipeline.
3. The Customer must purchase the necessary software package provided by Williams Transco Gas Pipeline to make possible daily monitoring of gas flows.
4. Gas transported on this schedule shall be separately metered and shall not be used interchangeably with firm gas purchased on any schedule.
5. The term of the contract shall be for a term of not less than one year.
6. Customers must remain on this tariff schedule for a period of no less than 12 months before switching tariffs or service.

RECONNECTION CHARGE

There shall be a charge for reconnection of services terminated because of non-payment of bills in accordance with the City Code.

EFFECTIVE July 1, 2014

CITY OF SHELBY
LARGE INDUSTRIAL FIRM GAS SERVICE

AVAILABILITY

Gas service under this rate schedule is available to eligible large industrial consumers, whose use of gas is principally for process purposes, and where space heating is incidental only. This service is offered only to customers whose average daily gas usage is reasonably anticipated to equal or exceed 1000 dekatherms per day.

CHARACTER OF SERVICE

Natural gas supplied under this schedule is sold on a firm basis only and shall be supplied through a single delivery point and be separately metered. Commingling of gas purchased under this schedule with gas purchased under other rate schedules is prohibited. All natural gas delivered under this rate is for the exclusive use of the customer and shall not be resold.

Each year, the customer shall elect a Maximum Daily Quantity (MDQ) which represents the quantity of gas the City is obligated to provide on a firm basis. The customer shall elect a MDQ prior to August 1st of each year that will be utilized for the term of October 1 – September 30 following the MDQ election. The City must approve and accept the MDQ prior to the commencement of service. Once the City approval is granted, the service will be provided under this Rate Schedule through September 30th of the following year.

MEASUREMENT, BILLING AND PAYMENT

For measurement purposes, the volume of natural gas delivered under this rate schedule shall be measured in cubic foot units. Volumes of gas hereunder will be determined in accordance with the City's measurement base. For billing purposes, the volume of natural gas billed under this rate schedule shall be billed by the hundred cubic foot units (CCF).

RATE

The City of Shelby Natural Gas System Rates shall be set forth on Sheet No. 40 in this tariff and are incorporated herein by reference. The customer's total bill is calculated using the following components.

$$\text{Total Bill} = (\text{MDQ} \times \text{D}) + (\text{U} \times \text{CR})$$

- MDQ = Maximum Daily Quantity elected for term October 1 – September 30, Dt/day
- D = Monthly Demand Charge
- U = Customer Monthly Usage in CCF
- CR = Total Commodity Rate for the current period in CCF

The customer shall pay the Demand Charge component of the rate (MDQ x D) each month during the October 1- September 30 term regardless of the amount of gas purchased. In the event that the customer utilizes more gas on a daily basis, as measured and reported by the City's telemetering equipment, the MDQ will be adjusted upward to match the highest daily delivery measured for the remainder of the term October 1 – September 30.

The revision of the customer MDQ based on actual deliveries shall not create any right to service at a specified level. All changes to character and quantity of service shall be subject to the City's consent based on the evaluation of the capacity of the City's pipeline system and gas supply contracts.

The Monthly Demand Charge shall be equal to 100% of the weighted average of the monthly reservation charges paid by the City to Transco for firm transportation service (including applicable demand surcharges) for capacity to deliver gas to the City's gas system. The Monthly Demand Charge shall be computed using the following formula: Firm Sales Daily Reservation Rate x days in the Month = Monthly Demand Charge. The Firm Sales Daily Reservation Rate shall be computed based on the weighted average of the price paid by the City for telescoped capacity on Transco, utilizing the telescoped reservation charges and surcharges in effect from time to time and charged by Transco (currently 17%, Zone 1-5; 25%, Zone 2-5; and 58%, Zone 3-5).

The Total Commodity Rate is adjusted for each billing period by adding the Base Commodity Rate to the average incremental cost of gas supply for the current period. This value is computed on a per dekatherm basis and converted to a per hundred cubic feet basis using the current heating value content of the gas. The Total Commodity Rate will be calculated each billing cycle and set forth on Schedule 40. The base commodity rate is shown below.

Base Commodity Rate

Large Industrial Firm Gas Service	All Volumes	\$.85/dekatherm
-----------------------------------	-------------	-----------------

NOTIFICATION OF MONTHLY AND DAILY USE

The Customer must notify the City on or before the fifth business day prior to each month and provide an estimate of the gas to be used each month. The Customer must not exceed the MDQ on any day, without written permission from the City. Any volumes exceeding the MDQ without permission from the City are hereby defined as Unauthorized Over-Run Volumes. The City reserves the right to curtail any Unauthorized Over-Run Volumes. The Customer shall be liable for any incremental charges or assessments (including, but not limited to penalties) by the upstream interstate pipeline during the time of the unauthorized usage by such Customer. The Customer shall also be billed any difference between the City's average incremental commodity cost for the month and the maximum daily commodity cost incurred for any Unauthorized Over-Run Volumes. The payment of a penalty for Unauthorized Over-Run volumes shall not under any circumstances be considered as giving any such Customer the right to take Unauthorized Over-Run volumes, nor shall such payment be considered as a substitute for any other remedies available to the City.

During an Operational Flow Order (OFO) on any upstream pipeline and in other situations where the City notifies the customer via email or by phone, the Customer must provide daily estimates of their daily anticipated use. The Customer must also keep their usage to within 5% of their daily estimated volumes to maintain the integrity of the system.

In instances where the Customer uses more than 5% of their estimated volumes during OFO or other situations where the City has notified the customer to estimate daily volumes, the City at its option, may invoice the Customer for actual gas supply commodity costs plus penalties in lieu of the average incremental cost of gas supply for the current period for the volumes over 5% of the Customer's estimated daily volumes for the cost gas supply for that day.

LATE PAYMENT CHARGE

Unless bill is paid on or before ten (10) days after the due date as shown on bill, the account will be assessed late fees as outlined in the City's fee schedule.

Natural Gas Residential Incentives

Revised 7/10/2010

Existing Customer*

Water Heater Rebate	\$150 1 st ; \$100 2nd water heater
Primary Heat Rebate	\$200 1 st ; \$100 2nd furnace
Range Rebate	\$50 for range
Dryer Rebate	\$50 for dryer

*Customer already has gas service installed-incentives only to replace appliances not on gas.

New Customer

Service Line	\$5.00 per foot
Water Heater Rebate	\$150 1 st ; \$100 2nd water heater + up to 75' free service line
Primary Heat Rebate	\$200 1 st ; \$100 2nd furnace + up to 100' free service line
Range Rebate	\$50
Dryer Rebate	\$50

Builder/Developer/New Construction

Service Line Cost	\$5.00/foot
Piping Allowance**	\$400.00*** and up to 175' free service line

**Requires participation in the "2 + Piping" program OR the "2 + 1" program.

2 + Piping Program

The "2 + Piping" program requires installation of natural gas primary heat AND a natural gas water heater PLUS piping to a range, dryer and one other appliance. The piping must be stubbed out through the floor of the building.

2 + 1 Program

The "2 + 1" program requires installation of natural gas primary heat, AND a natural gas water heater PLUS one other natural gas appliance. (Other combinations of appliances may apply in the "2 + 1" program with written approval from the Utilities Director)

***If additional water heaters or furnaces are installed an additional \$100 rebate per unit will be added to this.

Natural Gas Commercial and Industrial Incentives

Revised 7/10/2010

Commercial Incentives

If the Annual Load is:	The rebate is:
Less than 25 dt	\$150
Up to 50 dt	\$350
Up to 75 dt	\$500
Up to 100 dt	\$1,000
Up to 150 dt	\$2,000
Over 150 dt	\$2,500

The load will be based on a review of the proposed appliances added and will be at the sole discretion of the City.

Industrial Incentives

Will continue to review industrial loads on a case-by-case basis.

Stormwater Utility Fee

Rates
effective
7/1/2014

<u>Type</u>	<u>Monthly Fee</u>
Residential	\$2.50
Commercial	
1 – 5 ERU	\$10.00
6 – 25 ERU	\$25.00
26 – 50 ERU	\$75.00
51 – 100 ERU	\$150.00
101+ ERU	\$300.00

- Residential fees apply to a single dwelling on one parcel
- Commercial fees apply to any developed parcel that is not defined as residential (e.g. multifamily, office, institutional, commercial, industrial, etc.)
- Parcels with less than 400 square feet of impervious surfaces are not subject to a stormwater fee.

One Equivalent Residential Unit (ERU) is equal to 2,600 square feet of impervious area.

Stormwater Utility Fee Credit Program

The City of Shelby Stormwater Fee Credit program offers commercial property owners the opportunity to reduce their stormwater utility fee charges by applying for available fee credits. The fee credits described below are cumulative and a stormwater fees may be reduced as much as thirty (30) percent based on the following three credit categories:

- **Water Quality (10% credit)** – Properties qualifying for this fee credit shall provide an onsite Best Management Practice (BMP) that reduces the impact of pollution on water quality and conforms with the design and maintenance standards in the City of Shelby’s Phase II Stormwater Ordinance and the NCDENR BMP Manual (minimum 85% TSS removal). The required water quality analysis is to be prepared and sealed by an engineer registered in the State of North Carolina.

- **Water Quantity (10% credit)** – Properties qualifying for this fee credit shall provide a post developed rate of runoff that is less than or equal to the runoff rates at pre-development. Properties that reduce their peak discharge rate to pre-developed conditions are eligible to receive a stormwater runoff control credit. If site conditions do not allow for a complete reduction to the pre-developed peak discharge rate, the credit will be determined proportionally based on the amount of reduction attained (i.e., if the developed peak discharge is reduced by 70 percent of the differential runoff, then the corresponding credit would be $0.70 \times 10\% = 7\%$). Runoff rate analysis is to be based on a 10-year storm event with supporting calculations prepared and sealed by an engineer registered in the State of North Carolina.

- **Industrial Stormwater Permit (10% credit)** – An industrial property that is covered by an individual or general National Pollution Discharge Elimination System (NPDES) stormwater discharge permit is eligible for this credit if all requirements of the aforementioned permit are satisfied. An annual inspection report must be provided to the City to verify compliance and receive this fee credit.
