

# Could natural gas be coming to your area?

## We're working hard to make it happen!

Homeowners know all the benefits natural gas has to offer, and many of you have let us know that you would like for natural gas to be available in your area. We've heard you loud and clear and are working to make this a reality for you. But we need your help to get it done. Let your friends and neighbors know that we are gauging interest for natural gas where you live and ask them to contact us for more information. It is very costly for us to expand our gas lines, but if enough residents commit to our natural gas service we can bring this clean, affordable energy to you.

**Together we can make it happen!**
