

# Neighbor Helping Neighbor Bill Assistance Program

---

## What is Neighbor Helping Neighbor?

It is a program that allows utility users to donate money each month to help their neighbors in need of assistance. Donations must be a minimum of \$1 per month. Your donation will be added to your utility bill each month. Contributions are tax deductible.

## Who is Eligible to Receive Assistance?

The program is only available to City of Shelby utility customers. To be eligible for assistance from the program, customers must apply to the Salvation Army for assistance. The Salvation Army determines eligibility and disburses the funds. A utility customer may be eligible one time per calendar year for assistance, and total assistance per calendar year may not exceed \$200.
